

# CIRCULAR DESIGN CAMP

*LOOP Forum Copenhagen 23.-25. april 2024*

Supported by:

**INDUSTRIENS FOND**

## Insights & optimism, through action!

*Help boost an optimistic circular transition, where young people feel empowered, are equipped with circular economy skills and believe that they can help solve our climate challenges.*

### ***What is it?***

Circular Design Camp is a three-day case competition that brings the sharpest educational institutions and entrepreneurs together with the most ambitious companies to find new circular solutions to the companies' concrete challenges.

### ***How does it take place?***

In groups, students and entrepreneurs will find circular solutions to the companies' challenges driven by a design process.

The camp is sprinkled with professionally skilled and inspiring speakers, while trainers, experts and companies assist with sparring during the process.

### ***Who is it for?***

We welcome all ambitious entrepreneurs, bachelor and graduate students - regardless of field of study. However, there are limited spots.

Selected ambitious companies who are committed to creating concrete action are given the opportunity to make a case available and participate during the event.

### ***Come and join the leading event on the circular economy in the Nordics***

This year, the Circular Design Camp moves into LOOP Forum, which is the Nordic region's leading event on the circular economy. LOOP Forum gathers more than 3,000

participants from home and abroad with talks, debates, presentations and showcases tangible solutions for companies' circular transformation.

# As a place of education

*Circular Design Camp (CDC) is about matching the workforce of the future with real world challenges. Your students get the experience of working with a concrete challenge and having a close dialogue with the company that sets it.*

## *What's in it for you?*

- You will learn about sustainability and circular economy from different perspectives.
- You can use the camp as part of the teaching in general - both before and after CDC.
- You will collaborate and network with companies through work with their specific challenge.
- You will have the opportunity to network with other educational institutions.
- You will be part of Loop Forum - the Nordic region's leading event on circular economy.
- Participation and results can be written on the CV.

## *What is expected of you?*

- That teachers stay informed about CDC via emails (expected 3-4 emails).
- That teachers prep the students for the day based on the introductory news emails.
- That students actively participate in CDC every 3 days.
- That teachers assists with guidance of the students during CDC.
- Good energy and sparring about the further development of the camp afterwards.

# Participate as a student

*Circular Design Camp (CDC) is for you who want to be tomorrow's change maker and create an optimistic transition! You will have the opportunity to expand your skills and knowledge of circular economy, and show your talent to some of Denmark's most ambitious companies - perhaps your future workplace?*

## *What's in it for you?*

- You get a hands-on insight into circular economy and design methods in relation to companies' critical challenges.
- You will have the opportunity to showcase your talent to some of Denmark's coolest companies.
- You will be part of Loop Forum - the Nordic region's leading event on circular economy.
- The winners will be exposed on the main stage at Loop in front of all conference guests.
- You will have the opportunity to win both the companies' prizes and the main prize of DKK 25.000.
- Participation and results can be written on the CV.
- You will be part of tomorrow's change makers with something concrete in your backpack.

## *What's expected of you?*

- That you register before 22 March 2024 - there are a limited number of places. First come first served!
- Register as a group (4 people) or individually and be assigned a group at the camp.
- That you don't hold back and bring both your professionalism and curiosity.
- That you are present and actively participate in CDC all 3 days.
- That you are not afraid to share yourself and your ideas.
- That you want to use your expertise and creative energy to create positive change in the world.
